The rate increase is ridiculous. The economy is much stronger now then it was in 2008. There are less foreclosed houses. This rate increase will cause a great deal of hardship to the people of Maricopa. The probability of any future growth from new homes or businesses will be adversely affected. Everyone has to live on a budget. Global Water should not be allowed to just increase fees because they want more profit. It would be nice if we could all do that at work but life does not work that way. The first increase was too much. There is No Way this one should pass. If they can't handle it, sell Global to the City of Maricopa and make it city water.
